EVOLUTION VERSUS CREATION

One of the biggest issues in the world is where we came from and how everything was created. Did God create everything or some great mystery create all the materials and water and life just came about.

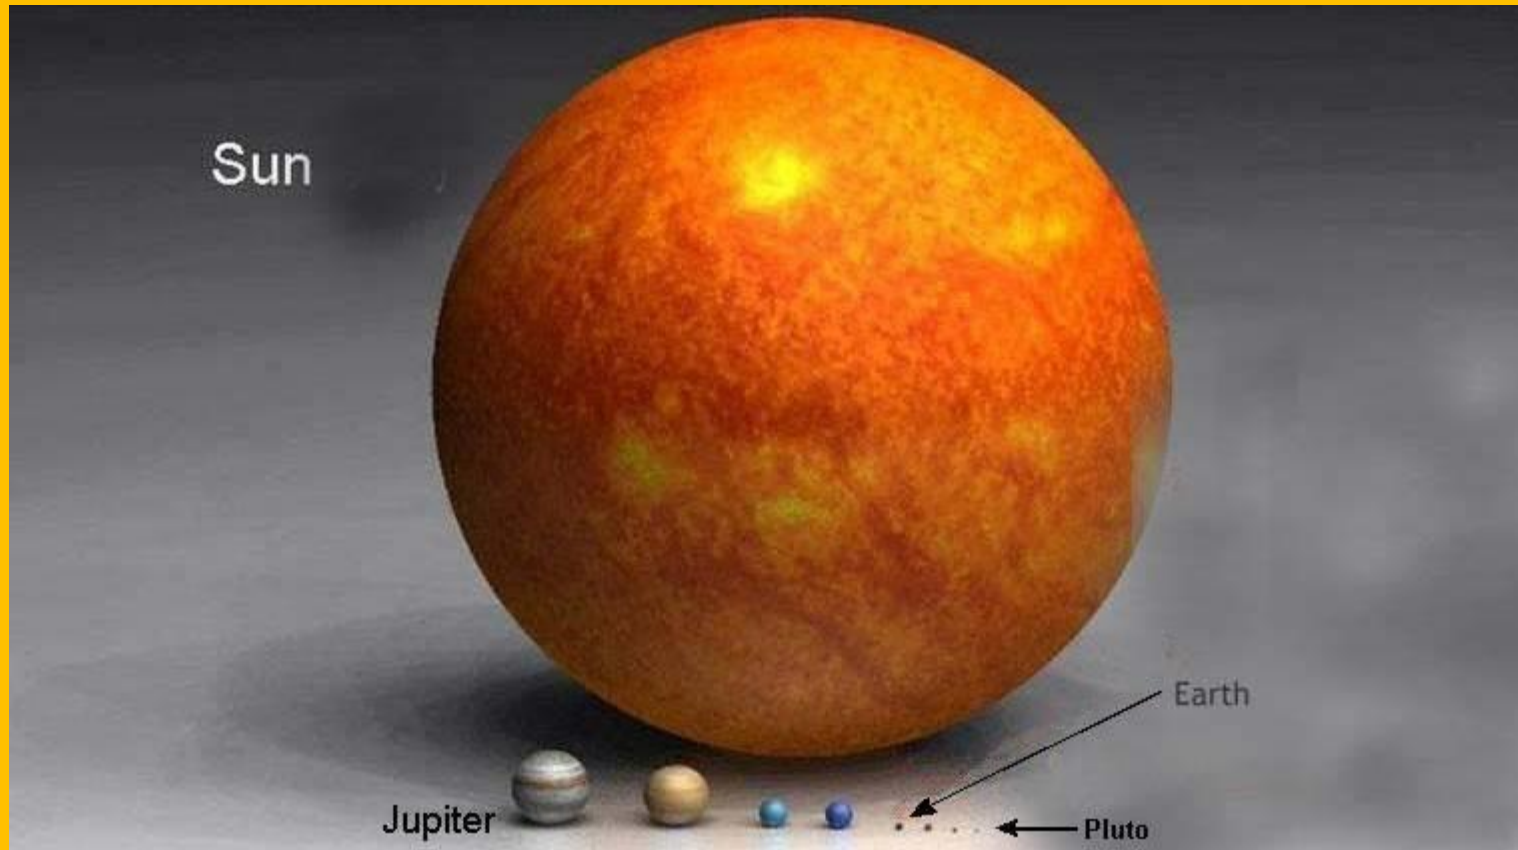

The Universe as we know it in the following pages

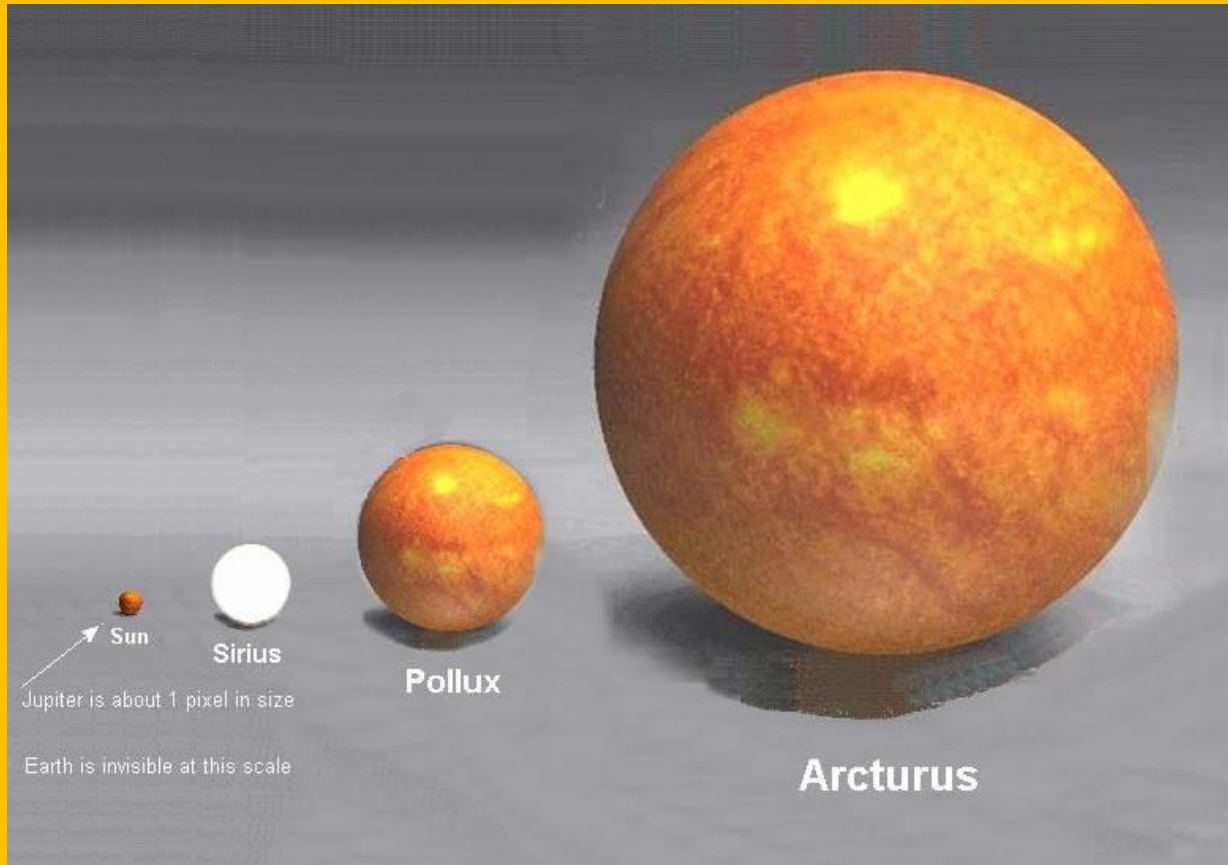

1st Law of Physics – matter cannot be created nor destroyed

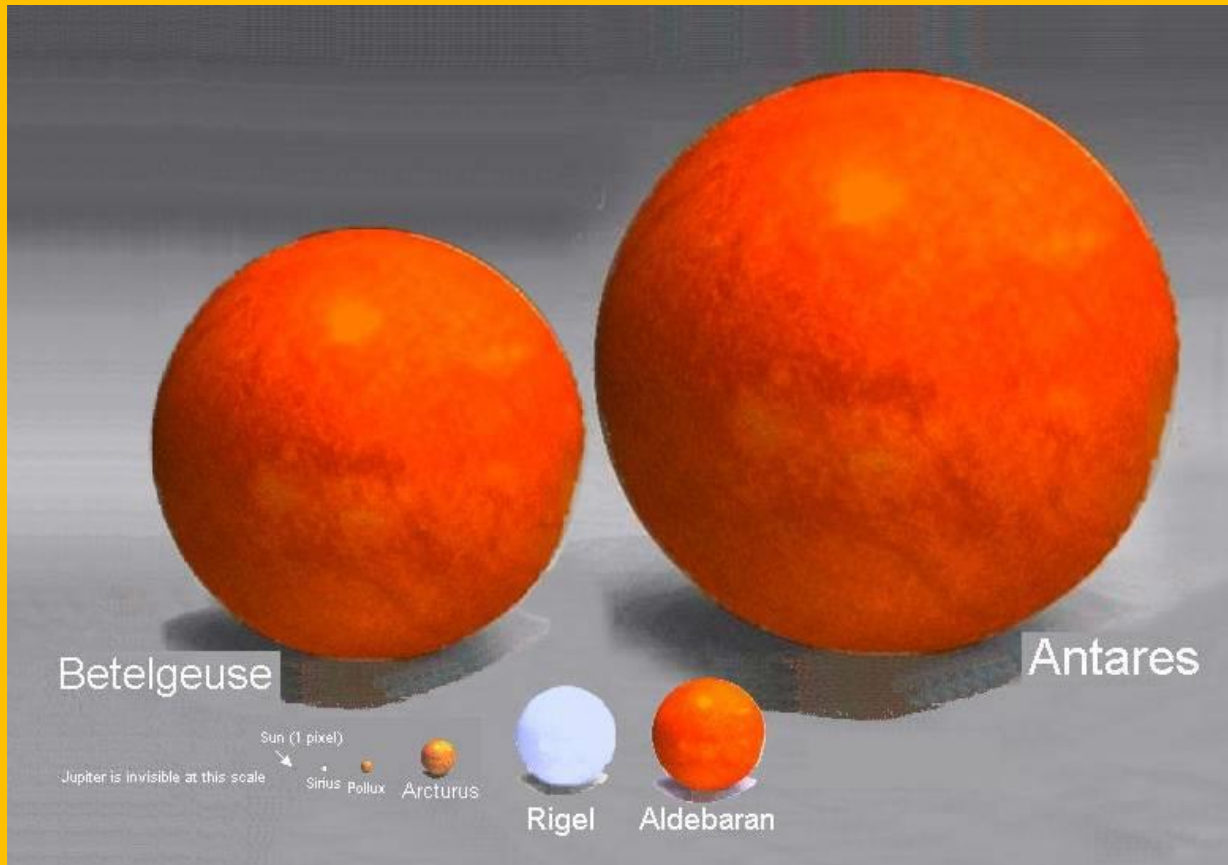

Where did all this material come from?

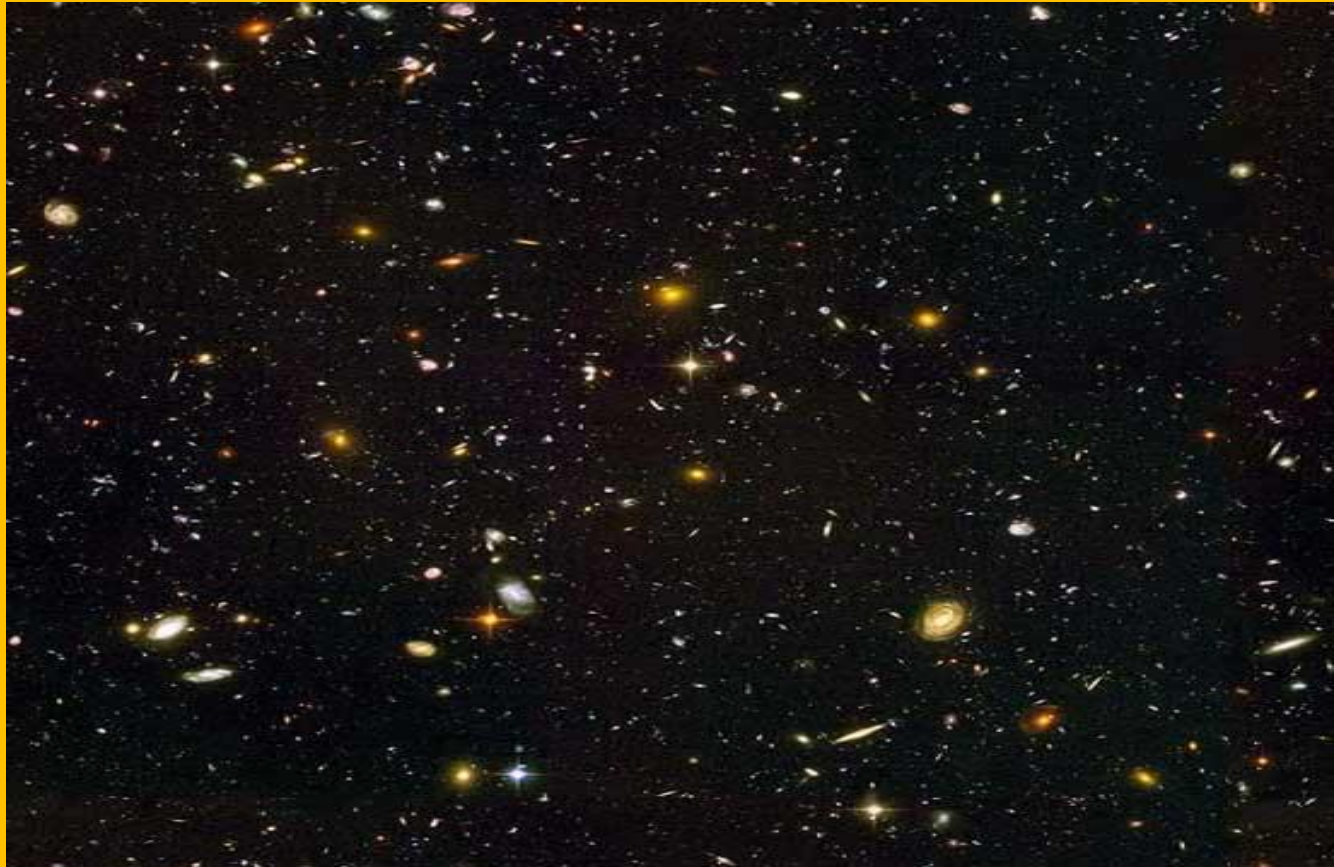

And where did water and life come from?

See “Pascal’s Wager”

What would you like to bet your
ETERNITY on?

Big Bang Supporters

- **Evolution**

- Big Bang by evolutionists
 - Wouldn't any life be killed in a BIG BANG?
- Where did all the material come from?
- Where did water come from?
- Where did plants come from?
- Where did animals come from?
- Where did humans come from?

Creationism

- Bible stated it
 - God created it all
 - Proof of God
 - OT Miracles
 - NT Miracles
 - Miracles since then

Pascal's Wager

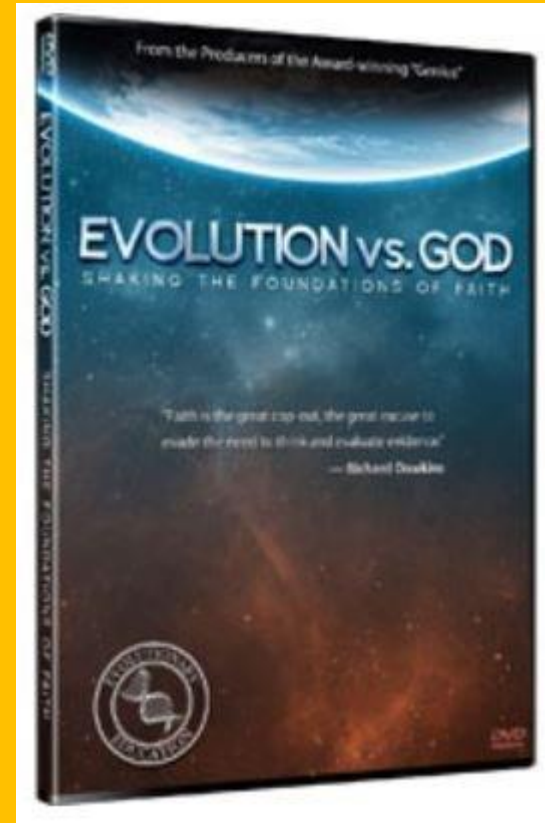

- If you do not believe in God and there is a God where will you spend all Eternity?
- If you do not believe in God and there is no God then you may win in this life
- If you believe in God and there is a God you win if you do his will and you spend all Eternity with Him in Heaven

Evolution

These people believe that everything came about naturally. All the material was always here and somehow life evolved so there had to exist all the material, water and life from the beginning and that the so call Big Bang did not kill all the life.

Creation

Simple, described in the Old Testament of the Bible in Genesis.

- God made everything in six days and rested on the seventh.
- 1st day - Light
- 2nd day - Sky
- 3rd day - Earth
- 4th day - Sun & Moon
- 5th day – Fish and birds
- 6th day – Plants and seeds
- 7th day – God rested
